

AHMED ALAA

WAREHOUSE & LOGISTICS MANAGER | SAP MM / EWM / SD | INVENTORY CONTROL & PROCUREMENT

10th of Ramadan, Sharkia, Egypt • +20 109 493 8005 • a.alaahamoda@gmail.com • linkedin.com/in/ahmed-alaa-764b44407

PROFESSIONAL SUMMARY

Warehouse Manager with 10+ years of experience managing warehouse operations across 5+ sites, improving operational efficiency and inventory accuracy. Specialized in SAP MM, EWM and SD, with strong involvement in PP, PM and FI to integrate warehouse, procurement, production, maintenance and financial operations. Develop automated dashboards and reports using Excel, Google Sheets and VBA to improve visibility and decision-making. Currently acting as Project Manager for Global Barcode Solutions (GBS) implementation, leading vendor alignment, contracting, execution and system rollout. Focused on accurate inventory, efficient warehouse processes, strong operational control and sustainable supply chain improvements.

CORE COMPETENCIES

Warehouse & Logistics	SAP MM / EWM / SD	Inventory Control	Warehouse Management
Procurement Cycle	PR / PO / GR	KPI & Data Analysis	Excel / VBA / Google Sheets
Warehouse Structure	Bins / Locations / Movement Types	Material Flow	PP / PM / FI Coordination
Barcode Systems	GBS Project Management	Process Improvement	Digital Transformation

PROFESSIONAL EXPERIENCE

Warehouse Manager | SAP MM Consultant (Internal Implementation) | Aleman Foundation

May 2019 – Present • Sharkia, Egypt

- Manage end-to-end warehouse operations across 5+ sites, covering receiving, issuing, storage and stock control.
- Serve as SAP Key User for MM, EWM and SD, coordinating with PP and PM to maintain smooth material flow.
- Lead warehouse structure design covering storage bins, locations and movement types, while improving material-handling processes.
- Control the full procurement cycle (PR, PO and GR) in coordination with purchasing and finance teams.
- Maintain high inventory accuracy through cycle counting, auditing, SAP-based tracking and reporting.
- Develop and monitor warehouse KPIs including inventory accuracy, stock turnover, availability and consumption trends.
- Prepare analytical reports for stock movement, consumption, slow/fast-moving items and stock valuation.
- Build automated reports and dashboards using Excel, Google Sheets and VBA to reduce manual reporting effort and improve reporting speed.
- Supervise warehouse personnel, assign daily tasks and ensure compliance with standard procedures.
- Optimize warehouse layout and bin locations to improve space utilization and picking efficiency.
- Integrate warehouse operations with SAP PM, PP, SD and FI for accurate tracking and cost control.

Selected Achievements

- Improved inventory accuracy through SAP-based tracking, auditing and reporting.
- Developed automated Excel/VBA reporting tools that reduced manual effort and accelerated reporting.
- Strengthened data-driven decision-making through KPI monitoring and analytical reporting.
- Leading barcode system implementation to digitize warehouse operations.

Warehouse Supervisor | Aleman Foundation

May 2017 – May 2019 • Sharkia, Egypt

- Supervised daily warehouse operations and coordinated warehouse team activities.
- Managed inventory using Alpha software and controlled stock movements and reporting.
- Led the warehouse team and improved workflow efficiency.

Storekeeper | Aleman Foundation

May 2016 – May 2017 • Sharkia, Egypt

- Handled receiving and issuing of inventory and maintained accurate stock records using Alpha system.

- Ensured proper storage, material handling and day-to-day warehouse discipline.

SELECTED PROJECT

Global Barcode Solutions (GBS) – Warehouse Digitization Project

- Project Manager responsible for end-to-end implementation within warehouse operations.
- Lead vendor alignment, contracting, execution and system rollout.
- Drive digitization of warehouse processes to improve traceability, inventory visibility and operational control.

EDUCATION

Bachelor's Degree in Economics | Zagazig University | 2014

TECHNICAL SKILLS

SAP & ERP: SAP MM, SAP EWM, SAP SD, SAP Key User, SAP integration with PP / PM / FI

Warehouse & Logistics: Warehouse Operations, Logistics, Inventory Control, Warehouse Management, Material Flow, Stock Accuracy, Cycle Counting, Warehouse Layout, Bin Management

Procurement & Materials: PR, PO, GR, Procurement Cycle, Material Availability, Stock Valuation, Slow / Fast Moving Analysis

Data & Reporting: Advanced Excel, Pivot Tables, Lookup Functions, Data Analysis, KPI Dashboards, Google Sheets, Automated Reporting

Automation: Excel VBA, Reporting Automation, Data Validation, Workflow Improvement, Digital Process Optimization

Barcode & Digitalization: Barcode Systems, Warehouse Digitization, Traceability, Inventory Visibility, System Rollout

AI-Assisted Productivity: ChatGPT, Microsoft Copilot, Google Gemini, Claude — AI-assisted research, drafting, data analysis, reporting, documentation and productivity

Management: Team Supervision, Task Allocation, KPI Monitoring, Vendor Coordination, Cross-Functional Collaboration, Problem Solving

DIGITAL TRANSFORMATION & AI-ASSISTED WORKFLOW

- Use AI-assisted tools to accelerate research, professional documentation, report preparation, data interpretation and day-to-day productivity.
- Combine SAP data, Excel/VBA automation and analytical reporting to improve warehouse visibility and support faster operational decisions.
- Support digital warehouse transformation through barcode implementation, structured data and automated reporting workflows.
- Translate operational requirements into practical digital solutions, dashboards and standardized reporting outputs.

PROFESSIONAL KEYWORDS

Warehouse & Logistics Manager • Logistics Operations • Warehouse Management • Inventory Management • Inventory Control • Stock Control • SAP MM • SAP EWM • SAP SD • SAP Key User • Procurement • PR • PO • GR • Material Flow • Stock Accuracy • Cycle Counting • Warehouse KPI • Stock Valuation • Data Analysis • Excel • VBA • Google Sheets • Barcode Systems • Digital Transformation • AI-Assisted Productivity • ChatGPT • Microsoft Copilot • Google Gemini • Claude • Process Improvement • Supply Chain • Warehouse Operations
